Global Pressures Are Changing the World of Learning and the Place of Learning in Our World

Meeting the Needs of Billions of Learners

▶ Inner-city school

Superintendent: “My students are disengaged, my teachers are over-burdened, my IT doesn’t work, and I can’t involve parents in the learning process.”

- Engaging content and collaborative learning
- Robust, dependable ICT
- New partnerships, supported by new data

Meeting the Needs of Billions of Learners

► Distant, rural school

Governor: *"I don't have enough schools and qualified teachers to meet demand for learning. Economic development through education is a matter of life-and-death for this region."*

- High-quality, video-based distance learning
- Collaborative teacher and leader training

Meeting the Needs of Billions of Learners

▶ Leading universities, worldwide

University president: *"I'm being asked to do more with less. We need to compete for students, for research, and for faculty. We need to be global, but also develop a unique identity and drive economic and social benefits for our region."*

- Reduce costs through ICT solutions
- Improve learner experience
- Collaboration and computing power to drive innovation

Meeting the Needs of Billions of Learners

► Lifelong learners, everywhere

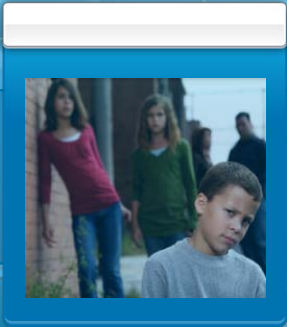

Unemployed manufacturing worker: *"I'm 35 years old, never had a good time in school, and now I've lost my job. I want to raise my family's standard of living, and I need to retrain. Where do I start?"*

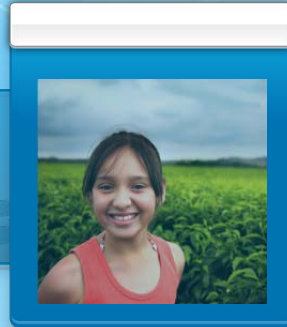

- Flexible time and place
- Wide variety of courses linked to job opportunities
